BE A CYBERSMART
HOLIDAY SHOPPER

CONDUCT RESEARCH

When using a new website for purchases, read reviews to see if consumers have had positive experiences.

WHEN IN DOUBT, THROW IT OUT

Links in emails, posts and texts are often how cybercriminals try to steal information or infect devices.

PROTECT YOUR MONEY!

When shopping online, make sure the site is security enabled. Look for URLS with **https://** to help secure your information.

GET SAVVY ABOUT WI-FI HOTSPOTS

Limit the type of activity you conduct on public wireless networks when shopping on the go.

GET TWO STEPS AHEAD

Turn on two-step authentication on key accounts like banking, medical and email.
