Protect Yourself from RANSOMWARE!

Ransomware = malicious software (malware) that encrypts or locks you out of your computer, device or files until a ransom is paid.

- **Don't** click on unknown links or files.
- **Don’t** click on links in pop-ups.
- **DO** back up all important files.
- **DO** report threatening or suspicious email and texts. **Don’t** respond to them.
