Affero General Public License (AGPL) 3.0 <i>PG, H</i>	Low Risk with Internal Use Notice	Low Risk with Internal Use Notice	High Risk	High Risk	High Risk	Moderate Risk
GPL 3.0 or LGPL 3.0 (GNU General Public License) <i>PG, H</i>	Low Risk with Internal Use Notice	Low Risk with Internal Use Notice	High Risk	High Risk	High Risk	High Risk
Other OSS Licenses	Contact Licensing Office					

GREEN [Low Risk]

YELLOW [Moderate Risk]

RED [High Risk]

Legend – colors are intended to guide the delegated authority through levels of potential risk regarding these OSS licenses. All OSS licensing of Regents-owned copyrights **requires** approval of the appropriate delegated authority, regardless of the “risk” categories.

PG is a “patent-granting” OSS license

H is a “hereditary” OSS license (sometimes referred to as viral)

** The heredity requirement may be overridden for derivative works in accordance with section 4 of Apache 2.0 and ECL 2.0 (i.e., it is possible add your own copyright statement to your modifications).
